

NATIONAL ASSOCIATION OF STATE FIRE MARSHALS

2019 NASFM Conference Educational Sessions Annapolis, MD July 22-25

We have planned an enriching educational program for attendees that will include many topics sure to provide insight and direction. The final agenda is coming soon, meanwhile here are many of the topics that will be presented in Annapolis.

- Automated Testing and Distance Monitoring of Water-Based Fire Protection Systems
- Marijuana extraction-process fire risks
- Fire protection systems and the safety layering approach
- Fire Investigation research findings from the UL Fire Safety Research Institute
- Consumer fireworks testing
- Interacting with housing developers for home fire sprinkler protection
- Smoke alarm listing standard revisions
- FEMA Fire Act Grant program status and opportunities
- Social media and marketing your public education message
- Trends and opportunities for fire alarm upgrades in the lodging industry
- South Carolina cooperative approach to Community Risk Reduction

A final agenda will be completed soon for the educational sessions, along with many other great opportunities to network with your peers and our industry partners.
